

A GLOBAL LEARNING EXPERIENCE IN MALAYSIA

SS17—UTM MyTree SUMMER SCHOOL

Since 2016. It is a 2 week programme equivalent to a 2-credit learning course in and out of lecture rooms/ laboratories in a Malaysian environment. It is a universal learning experience that will prepare you towards a professional career in a world without boundaries. Slight variations in content may be arranged to consider background of students (mechanical/civil/electrical engineering).

A Global Learning Experience

There are technical talks on current research, visits to research laboratories at UTM with demonstrations, and lab activities which include but not limited to;

- Introduction to biomass samples, (oil palm kernel) processing, characterization
- Material analysis
- CAD/CAM-related activities

And you will be involved in presenting what you have learned and experienced. And have fun solving riddles in an explorace, testing your memory of what you have seen and heard.

Visits...

You will be taken to visit local industries or/and involve in some cultural activities, experience local culture—a truly ASEAN experience.

Living with a local student (buddy) 24/7...

Improve self confidence and establish a good personal identity while developing good inter-personal skills;

- ⇒ communication,
- ⇒ listening,
- ⇒ team working,,
- ⇒ attitude & deportment,

while increasing your knowledge in mechanical/civil/electrical engineering. The length of the programme may be arranged from 1-2 weeks. Come join us for an unforgettable experience and make memories with friends of different culture—learn to appreciate similarities and differences towards a shared sustainable future.

USD1,000 per participant for 2 weeks with a minimum of 15 per group.

- Session 1: 13th-24th January 2020
- Session 2: 22nd June-3rd July 2020

Application closes 2 months before each session.
